

Come on baby light your fire!

First things first, let's get the BBQ fired up... in the chimney - Stack firelighters, kindling, and charcoal (in that order). Light the firelighters.

With a little love and care - perhaps some hot air - your fire should get going. Once the flames have died down, and the coals look white hot, carefully tip out the chimney, spread the coals out and don your apron, It's time to cook!
